

Boehlerit makes its customers successful

We aspire a long-term client relationship, embossed by reliability and integrity.

Boehlerit enjoys sustainable success

We ensure long-term success through farsighted thinking and acting, lean company structures, fulfillment of needs of our stakeholders and ongoing improvement of our value generation processes.

Boehlerit manages and improves its processes constantly

We, the workforce, define and optimise our corporate processes and measure our joint goals consistently.

The staff makes Boehlerit

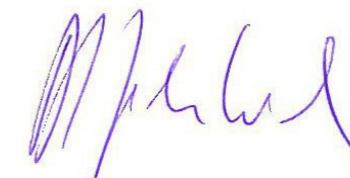

We choose our staff carefully, entrust them with responsibility, offer ongoing training and involve them in decision-making processes, thereby achieving the high commitment of our workforce.

Boehlerit links economy with ecology

We contribute to sustainability by bringing environmental, social and economic requirements in a good balance, meet legal obligations and improve continuously environmental and energy performance.

Boehlerit maintains long-term supplier relations

We achieve supplier quality and hence long-term business relationship through careful selection, continued assessment, regular exchange of experience and partnership approach.
